

Slitting Line

High Quality Product for
in house Coil-processing

The Most Important Specs

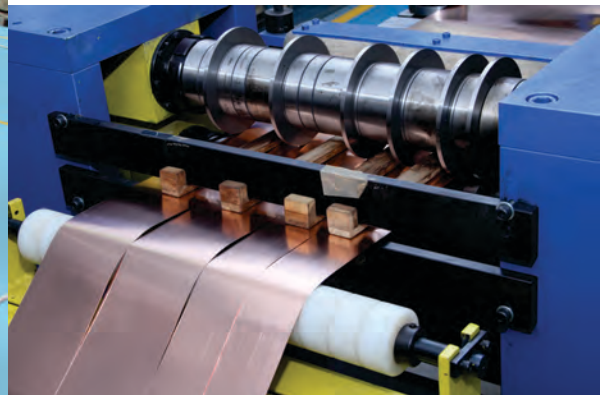

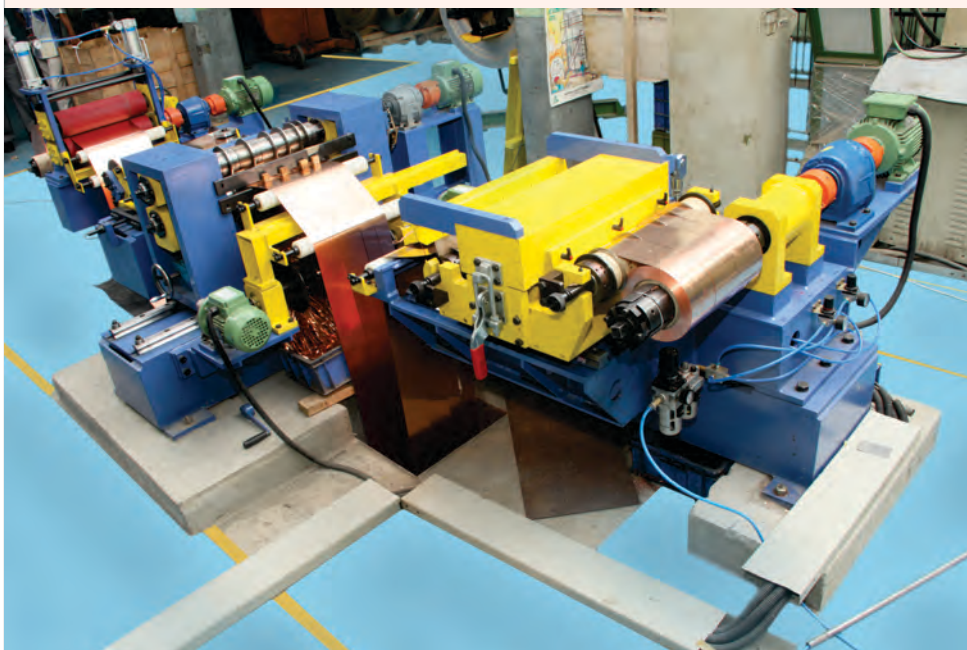

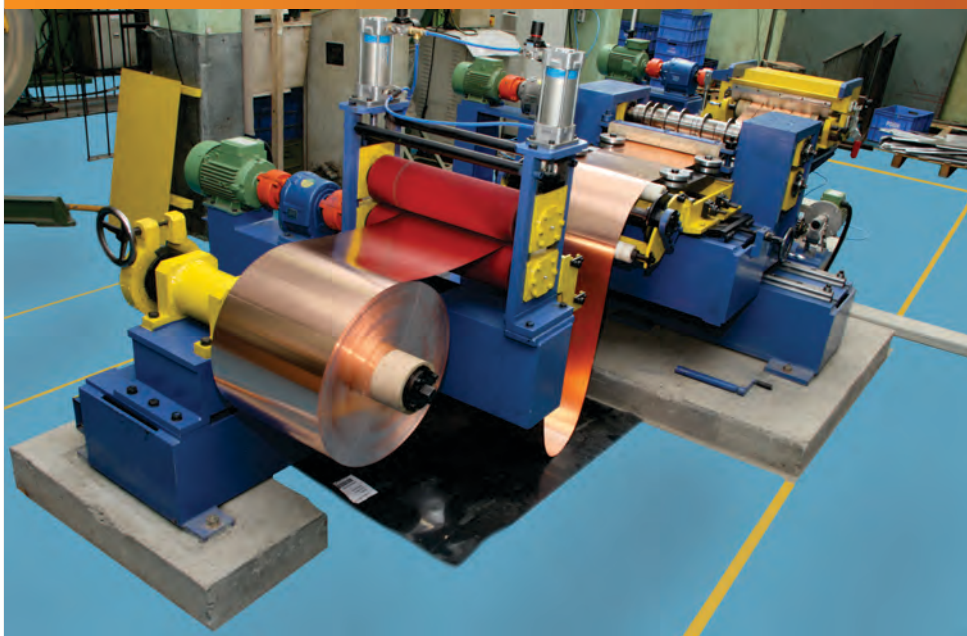

Coil Weight up to 5 tons

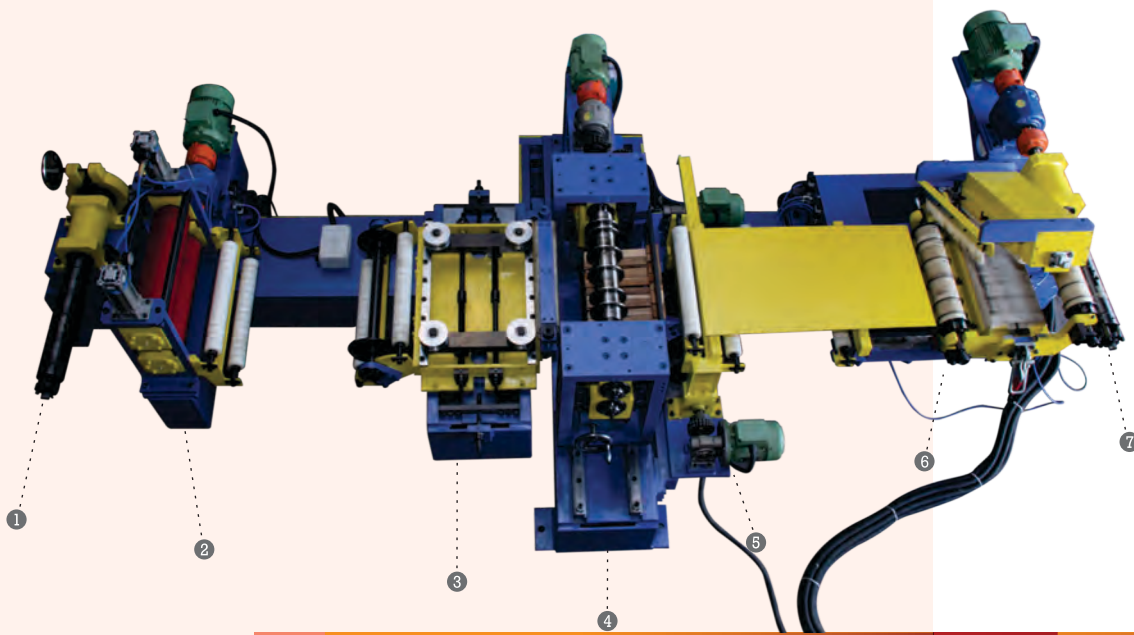

Width up to 600mm

Lines for Thicknesses ranging from
0.05 to 2 mm

Average annual through put up to
10,000 tons

Strip speeds of up to 50m/min

- ① Uncoiler
- ② Pinch Roll
- ③ Entry Side Guide
- ④ Slitter
- ⑤ Scrap Winder
- ⑥ Tension Pad
- ⑦ Recoiler
- ⑧ Control Panel

SLITTING LINE

Advantages for your in-house production plant

High output/throughput by means of rigorous tooling time minimisation and high production speeds.

High level of cutting accuracy by means of high-precision knife shaft bearings.

Burr-free cuts and high number of cuts at the slitting shears with minimum deflection of the cutter shaft.

High level of line availability and long lifespan by means of exclusive use of select components of renowned manufacturers.

Affordable solution for in-house slitting requirements.

Low Inventory carry cost for Raw Material.

On-Site service available by our specialists.

One-stop shop for customised system solutions including line automation.

Flexible line design as per customer requirements and use of experiences of other customers.

The above equipments are designed for Line speed of 30-50 Mtrs. Per Minute. Models of higher capacity or higher line speeds are available on request.

Technical specifications are indicative and subject to change to suit end application.
